NEW BREMEN LOCAL SCHOOLS

Volume L - Issue 4 February / March 2019

SUPERINTENDENT NEWS

NB School Board News

The New Bremen Board of Education held an organizational meeting on Wednesday, January 9. Shelly Busse was elected president and Scott Bertke vice president. Board meeting dates were set for the third Wednesday of each month with the exception of December which will be held on the second Wednesday of the month. January was School Board Recognition Month. A proclamation was read recognizing the Board members for their commitment to serving the community. Please thank them for their service!

Building Project Update

The new facility plan on the district website has been updated to reflect new opportunities, changes in educational staffing, and budget constraints that the district is working through due to inflation of construction materials and labor cost since the bond levy passed in May of 2017. The original plan included three academic classrooms and a special education room located in the southeast connector. In addition, two existing high school rooms would have also been used in the existing high school. Reductions in staffing through attrition will open up additional classroom space in the existing high school. Another change that took place was the reduction of the middle school principal position and the realignment to K-6 and 7-12 principal positions.

These changes have allowed the district to house the seventh and eighth grade students in the existing high school. The district plans to renovate one of the larger high school classrooms to create a seventh and eighth grade science lab and remodel office space to gain a special education classroom. Four other high school classrooms will be used for the seventh and eighth grade. Therefore, the south academic hall will house the seventh and eighth grade classrooms and lockers for grades 7-9. (Students in grades 10-12 will use lockers in the north hall where most of their classrooms are situated.) This setup preserves the original concept of the plan by having a junior high wing, is cost effective, and is better aligned with principal supervision. It is also an efficient use of space in the high school as it allows each teacher to have their own classroom. If you would like additional information, community members are invited to attend a building project presentation on January 30 at 7:00 PM in the James F. Dicke Auditorium.

Bids for construction of the new elementary building will go out in February. We anticipate this process to take about a month before we are able to begin selecting contractors. The groundbreaking ceremony will be on Thursday, March 28 at 1:00 PM. The public is welcome to attend.

New Cafeteria Menu Option Coming Soon

New Bremen Schools will be expanding cafeteria menu options for high school students. A salad bar will be available starting in February of 2019.

New Bremen Local School District is looking for a Cafeteria Manager

This position is responsible for the organization, management, and evaluation of an effective district-wide food service program. Maintain high standards for quality food service and customer satisfaction. Use marketing techniques to promote food service and maximize profits.

This is a unique opportunity as the district is constructing a new elementary facility and seeks to expand menu offerings. The individual will work with administration to ensure a successful transition into the new facility.

Additional information may be found by visiting our employment page on the school website at http://www.newbremenschools.org/Employment.aspx

Mr. Jason Schrader, Superintendent

TREASURER'S REPORT

The District's most recent Five-Year Forecast was filed in October 2018. When compared to the forecast filed last spring, the October 2018 forecast indicates considerable improvement. The majority of this improvement is attributed to the increased collections for school district income tax. In addition to increased revenue from the school district income tax, reductions in estimated spending have also contributed to the overall forecast improvement. A significant part of the reduction in estimated spending is reflected in the savings from transitioning to a different health insurance plan design. Other factors include savings through staffing reductions, purchased services, and migrating the cross-categorical special education unit in-house.

Despite the improvement, the current forecast continues to call for growing operational deficits. However, due to healthy cash balance reserves, the District has some time to weigh available options to address its need. The District understands the importance of striking a balance between revenues and expenditures in order to maintain healthy finances, while at the same time provide quality instructional programming for its students.

The five-year forecast can be accessed through the New Bremen Schools website under District – Board of Education. The link is located below the Board member information.

If you have additional questions, please contact me at (419) 629-8606 or jill.ahlers@newbremenschools.org.

Summary of Five-Year Forecast – Updated December, 2018

NEW BREMEN LOCAL SCHOOL DISTRICT -- AUGLAIZE COUNTY

Financial Forecast	Fiscal Year 2019	Fiscal Year 2020	Fiscal Year 2021	Fiscal Year 2022	Fiscal Year 2023
Beginning Balance	6,375,386	6,377,262	5,540,911	4,778,129	3,830,088
+ Revenue	9,165,585	8,880,562	8,936,854	9,085,203	9,193,058
+ Proposed Renew/Replacement Levies	-	-	-	-	-
+ Proposed New Levies	-	-	-	-	-
- Expenditures	(9,163,709)	(9,716,913)	(9,699,636)	(10,033,244)	(10,336,145)
= Revenue Surplus or Deficit	1,876	(836,351)	(762,782)	(948,041)	(1,143,087)
Ending Balance with renewal levies Note: Not Reduced for Encumbrances	6,377,262	5,540,911	4,778,129	3,830,088	2,687,001

When: **Monday, March 18, 2019**
Where: **NB Elementary**
NB Middle School
NB High School
Time: **6:30 - 8:00 P.M.**

PLEASE MARK YOUR CALENDARS
AND PLAN TO ATTEND
NEW BREMEN LOCAL SCHOOLS
OPEN HOUSE!

Graduation for the 2019 graduating Seniors will be held **Sunday, May 26, 2019**

Baccalaureate: 1:30 PM James F. Dicke Auditorium
Commencement: 2:30 PM High School Gymnasium

K-6 PRINCIPAL'S REPORT

Fourth Grade Entrepreneurs

The week before Christmas our fourth grade students made and sold chocolate covered pretzels for their entrepreneurial project. They learned about the entire process of using resources, capital outlay, and finances to create and market a product. They made just under $450 which was donated to the following organizations: St. Jude Children's Research Hospital, ASPCA, Auglaize County Animal Shelter, WWF – Narwhal and Duck Billed Platypus.

D.A.R.E.

In the fall, our sixth grade students participated in the DARE (Drug Abuse Resistance Education) Program sponsored by the Auglaize County Sheriff's Department. The DARE graduation was held on December 19 with the following students winning the essay contest: Lydia Bushman, Will Hemmelgarn, and Lilly Wilker.

Spelling Bee

The annual Spelling Bee for participants in grades four through eight will be held Tuesday, February 5 at 9:00 a.m. in the middle school gym. Parents and community members are welcome to attend.

Fourth Grade Musical

The annual fourth grade spring musical will be held Thursday, March 14 at 9:30 a.m. and 7:30 p.m. This year's musical is entitled "Pirates! The Musical".

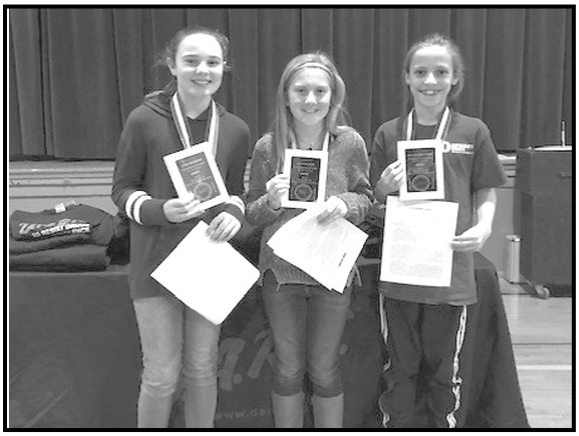
Kindergarten Screening

Kindergarten screening for 2019-2020 school year will be held March 25 and 26. Children need to be five years old by August 1, 2019 to be kindergarten eligible. If you have any questions about screening or need to register your child, please call the elementary office at 419-629-3244.

Spring Testing Dates

All State testing will again be completed online this year. Testing will begin after announcements each day listed. Please encourage your child to eat a healthy breakfast and refrain from scheduling appointments on these mornings.

March 28	Grades 6, 8	English Language Arts – Part 1
March 29	Grades 6, 8	English Language Arts – Part 2
April 2	Grades 4, 7	English Language Arts – Part 1
April 3	Grades 4, 7	English Language Arts – Part 2
April 4	Grades 3, 5	English Language Arts – Part 1
April 5	Grades 3, 5	English Language Arts – Part 2
April 9	Grades 6, 8	Math – Part 1
April 10	Grades 6, 8	Math – Part 2
April 11	Grades 4, 7	Math – Part 1
April 12	Grades 4, 7	Math – Part 2
April 16	Grades 3, 5	Math – Part 1
April 17	Grades 3, 5	Math – Part 2
April 25	Grades 5, 8	Science



Congratulations to the sixth grade DARE (Drug Abuse Resistance Education) Essay winners!

Mrs. Diane Kramer
K-6 Principal

NEWS FROM OUR SCHOOL PSYCHOLOGIST

Our focus continues to be on Character Education. This year we are learning about the 7 Habits of Healthy Kids. Students have been participating in Habit of the Month based lessons weekly, facilitated by Mr. Chad Wells, Mrs. Shelley This, and myself. A student from each grade (K-4) who exemplifies the Habit of the Month has been recognized and awarded with a pizza party. Recently, we have completed lessons that focus on mindfulness, relaxation, and prioritizing.

The Habits of the Month for the second half of the year are as follows:

January	Habit 4	- Think Win-Win
February	Habit 5	- Seek First to Understand, Then to Be Understood
March	Habit 6	- Synergize
April/May	Habit 7	- Sharpen The Saw

Our seventh and eighth grade students have continued to focus on Character Development. This fall, students participated in an interest inventory and personality inventory. These results will be kept on file for each student as they continue to grow and contemplate career paths. Results will also be used to identify students with specific career interests. Speakers from the community will then be brought in during lunch for a Career Café in which the identified students will be invited to attend and learn more about their careers of interest. So far this year, interested students have learned about athletic training and wellness careers.

On the testing front, state-wide assessments are set to begin March 28. Testing is completed to gauge student achievement throughout the year. Results from each assessment are used by teachers to target areas of deficit and monitor growth. For a full list of assessment dates please visit www.newbremenschools.org.

Mrs. Lauren Link
School Psychologist

FIRST GRADE

Our first grade students have been working very hard in math this year. In first grade, our standards focus on the following: addition and subtraction concepts, addition and subtraction strategies to 20, place value, two-digit addition and subtraction, measurement and data, and geometry. Each lesson begins with an engaging and quick presentation of the day's lesson on the Smartboard. Then we move on to a quick review of some of the past lessons in order to retain concepts taught from prior days. After the lesson for the day is presented and discussed, we often move on to using math manipulatives to reinforce the daily concept. After the children complete independent work on the given topic, a homework sheet is sent home for quick review.

Winter is the time for the first grade to learn about Martin Luther King, Jr., to write our New Year's Resolutions, and to celebrate Valentine's Day. It's a time to read books about snow and being "snowed in" and multiple books about lost mittens. There is nothing like enjoying a warm cup of hot cocoa and then writing about it.

Mrs. Melinda Clark
Mrs. Judy Heitkamp
Ms. Barb Sims

Third Grade News

Third grade is continuing to work hard and make great progress!

The students are making progress on their multiplication and division facts. The third graders have been working hard to meet individual Accelerated Reader goals. We are proud of the growth that we are seeing.

In Language, the students have worked hard at creating different types of writing. They had fun pretending to be turkeys persuading the farmer not to eat them. They also wrote to Mrs. Claus trying to convince her to pick their new design for a Santa suit. These writings were very imaginative. In the future, they will be writing snow globe stories and doing an animal research project.

Flat Stanley is arriving from family and friends around the world. So far, Stanley has been spotted in places all across the United States. The third graders were most impressed by the letter from the White House signed by President Trump. He has also traveled to Japan, Italy, and Germany. The students learn a lot from the letters and pictures that come back from Stanley as he continues his adventures. If you are in our building, check out the maps in the third grade hall that show all of Stanley's visits.

We are having loads of fun in science class! We have learned about matter, different types of energy/ resources, rocks, and minerals. The students got to engineer and race their own magnetic car, design and create a boat for a boat battle, experiment with prisms and light, and grow our very own crystals! Recently we welcomed a new class pet, Hazel the hamster, as we will be learning about animals and their parents in the upcoming months. Currently, we are focusing on soil and plants. We will be creating our own terrariums and will have visitors coming in to do some soil and erosion activities with us. We will be collecting large glass (empty) baby food jars in the coming weeks. Please keep us in mind if you have any.

In reading, the classes have read many stories from different genres, including historical and realistic fiction, non-fiction, and poetry. We are excited to continue through the series and look forward to the things we are learning from the variety of genres we are exploring.

The students completed their very first Ohio Achievement Test in October. The students worked very hard. We will continue to prepare for the second reading test, in addition to the math test which will be given in April.

There are many things to look forward to for the rest of the year. Our field trip to Carillon Park in Dayton will be in the early spring. We will also be doing our New Bremen history unit, including our annual walk around town before the end of the year.

Thank you for all of the help you give your children!

Mrs. Christy Bertke
Mrs. Molly Rush
Mrs. Jenny Perryman
Mrs. Kelly Wilker

5th Grade

Another quarter has flown by and 2019 has arrived! Fifth grade students were very busy during the second quarter.

In Mrs. Moeller's math class, the students learned how to perform fraction operations using manipulatives, drawing models, and applying them in real-world situations such as baking. A big thank you goes out to all of the parents who sent in food supplies and volunteers who came in to help the students make a holiday treat. Some of these goodies were donated to the New Bremen Police and Fire Departments to thank them for keeping us safe. In the third quarter, students will focus on decimal operations.

In Mrs. Timmerman's reading and language arts class, the students learned more about nonfiction text structures and features. Reading groups continue to be an enjoyable part of language arts class, as students read *Bridge to Terabithia*. Also, before winter break, students were able to try out for the spelling bee. Ten students from the fifth grade qualified for the spelling bee and will be participating in the competition in February.

Mrs. Steinke's class focused mainly on life science standards by exploring various ecosystems. Students have also been using the Gizmo program to manipulate variables in an individualized setting. During the 3rd quarter, students in social studies will focus on Central and South America.

Students enjoyed various Christmas activities which included completing a STEM challenge using gumdrops, toothpicks, and spaghetti to make the tallest standing Christmas tree, making Christmas treats, and visiting with the residents at Elmwood to spread Christmas cheer.

We have had a great first semester and look forward to a wonderful 2019!

Mrs. Tess Moeller
Mrs. Andrea Quellhorst
Mrs. Tracy Steinke
Mrs. Andrea Timmerman

Christmas Activities

STEM Challenge and Visit to Elmwood

K-6 TECHNOLOGY

The students have been working on many skills and projects throughout the K-6 levels from Star Reading / Math assessments, the use of programs such as Google Drive, Microsoft Word, Excel, Publisher, 365 Email, One Drive, Typing Master, and PowerPoint along with the use of various websites such as ABCya.com, FunBrain.com, and StarFall.com. Character Education has also been covered during our collaboration time for grades K-4.

In the past weeks, the kindergarten classes have been introduced to beginning typing skills on Key Board Zoo 2 on the ABCya website. First grade classes have been working on identifying electronic devices, working with numbers, patterns, and shapes on the website ABCya. Second grade classes have been working on their Microsoft Word skills where they have learned about adding pictures and Word Art. Third grade classes have been working with Google Drive and the programs that are offered with it for various topics. Fourth grade classes have been working on Google Drive and the various programs that are offered along with advertisements for their Chocolate Covered Pretzel Rods project with the Microsoft Publisher program. Fifth and sixth grade classes have been working on learning to use their school email on Microsoft 365, as well as One Drive, to share documents and information within the New Bremen Local Schools network. The fifth grade has been introduced to and worked with Google Drive. The sixth grade classes have also been working on internet research, writing, as well as being introduced to Google Drive.

In the upcoming weeks, the kindergarten classes will continue to work on navigating the internet to various websites, learning basic keyboarding skills, and continuing to further develop mouse skills. First grade classes will be introduced to basic keyboarding skills, using Microsoft Word, and developing a basic understanding of navigating the internet. Second grade classes will continue working with Microsoft Word along with basic keyboarding skills. They will also be introduced to Google Drive. Third and fourth grade classes will be working on projects involving Google Drive, Microsoft Excel, Word, and Publisher, along with continuing to work on keyboarding skills. Fifth and sixth grade classes will be working on projects involving Google Drive, Microsoft Excel, Word, Publisher, PowerPoint, and Sway while incorporating email and One Drive along with keyboarding skills.

Mr. Chad Wells
K-6 Technology

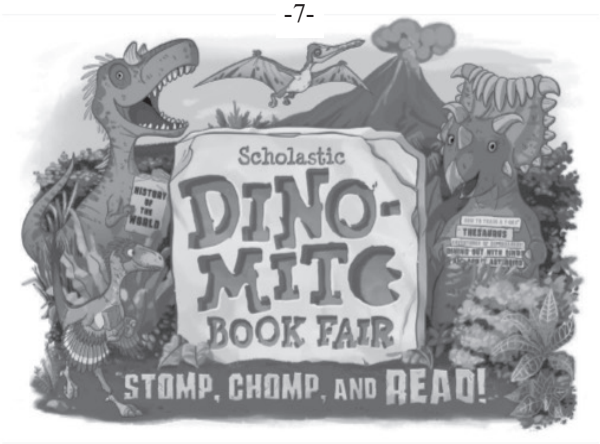
MUSIC News

Happy 2019! It doesn't seem possible that we are already halfway to summer vacation – what a whirlwind this school year has been already! One of the most enjoyable aspects about teaching a multi-age subject is that I have the opportunity to watch each student grow year after year. Children who were hesitant about singing, dancing, or playing instruments a year ago are now eagerly asking what we're going to do in our next class before I've barely begun that day's lesson. It is always exciting to watch students gain confidence to try out new things and to become more excited about figuring out how music works. One of my favorite questions this school year has been: "What's the point of music?" It has become a topic that all of my classes have spent time exploring by experiencing different types of music, developing their music reading and writing skills, and by questioning why we prefer some songs over others.

In November, the third graders performed two choir songs at the Veterans Day Assembly: *America, Of Thee I Sing,* and *I Am a Small Part.* In December, the second graders performed a concert program that was based on the well-known story, *How the Grinch Stole Christmas*. At the elementary Christmas assembly, all of the students in kindergarten through sixth grade participated by performing two Christmas songs per grade level. Every student worked very hard for each of their music performance events, and I am so pleased with their excitement for music and their growth as musicians! In March, the fourth graders will be presenting their spring concert program that is based on the theme *Pirates!* They are eager to get started with rehearsals, and we all look forward to sharing this concert event with you!

Ms. Holly Smith
Elementary Music

(Second grade musical held on December 6)



Dear Parents and Families,

The Scholastic Book Fair will be at our school March 18 - 22 and special Family Shopping is scheduled during our annual Open House from 6:00 PM – 8:30 PM.

Our Book Fair theme for spring 2019 is **Dino-Mite Book Fair: Stomp, Chomp and Read**, a prehistoric land full of irresistible new books kids can't wait to track down. We'd like your help to make this Book Fair experience for our students a stomping, chomping, reading good time!

Please complete the form below by circling the areas that you are interested in volunteering. Thank you so much! Return the form to the Elementary Office and write my name on it. You can also email me at shelley.this@newbremenschools.org

Sincerely,

Shelley This, Elementary Librarian
Book Fair Chairperson

Sign me up to help at the Book Fair!

SCHOLASTIC

GRADE 7 - 12 PRINCIPAL NEWS

It is hard to believe that the first semester of the school year has come and gone already. I hope each of you had a terrific holiday season and had time to enjoy it with the ones you love. Staff and students are settling back into their routines and continuing to work hard in the classroom on a daily basis.

Parents, I would like to provide you with information on the OhioMeansJobs-Readiness Seal available for high school students. Shelly Busse, AMBE Executive Director, and I met with high school students earlier this year to distribute paperwork as well as discuss the benefits of the Job Readiness Seal. Students can earn the OhioMeansJobs-Readiness Seal on their high school diploma and transcript indicating they have the personal strengths, strong work ethic, and professional experience businesses are looking for. New Bremen High School is one of the first schools to roll this out to its student population, and Shelly and I have since met with various other districts who want more information. The Ohio Department of Education has paired with many businesses to develop the 15 professional skills needed to obtain the Seal. The business support continues to grow, and businesses have agreed to move applicants with the Job Readiness Seal to the top of the applicant list when filling a position. I encourage all students, whether career or college bound, to take advantage of this opportunity to help set themselves apart from others who will be looking for jobs in the same field. Students simply need to complete the 15 professional skills listed on the Validation Form, have it signed off by three mentors (1 must come from outside the school setting), and turn the completed form into me. For more information, please check out http://education.ohio.gov/Topics/New-Skills-for-Youth/SuccessBound or get in contact with via phone or email.

Throughout the year, students in grades 7-12 will have the opportunity of being recognized for showing exceptional character in school. In grades 7 and 8, students will be nominated by teachers for displaying good character. At the end of each grading period, randomly nominated students will be selected to receive lunch and ice cream from Dairy Queen. At the high school, students can be nominated for exhibiting good character by their teachers as well. Students nominated for the Cardinal Character Award will then be voted on by the teachers, and the winners will be recognized at halftime of random basketball games this year. Winners will receive an engraved plaque as well as a $25 Chamber Gift Certificate donated by the New Bremen-New Knoxville Rotary Club. I want to thank the Rotary Club and Dairy Queen for their support towards New Bremen Schools and our students.

On December 7, students in grades 6-12 had the opportunity to listen and learn from Dr. Scott Grant. Dr. Grant is a professor at the University of Findlay and is becoming increasingly popular as a speaker for both students and teachers. Dr. Grant provided students with an hour talk on how to use social media as a way to enhance their lives. Before posting anything to the internet, Dr. Grant encouraged students to think about the Purpose, Plan, and Value of their post. If the post does not add value or enhance your life, or the lives of others, the post should never be sent. Now more than ever, colleges and businesses are checking applicants' social media pages before asking them to join their team. With that, students' social media pages should reflect who they are. I encourage all parents to further discuss the proper uses of social media with their kids if not done so already.

Lastly, with the turn of the new year comes high school scheduling. In the near future, registration for high school courses will begin. Students and parents may notice several changes that have been made to the registration process this year. It is my hope that the changes will make for a smoother registration for all students and staff. If at any time you have questions about scheduling, please do not hesitate to contact me or Mrs. Tricia Wendel.

Mr. Marcus Overman
Gr. 7-12 Principal

JUNIOR HIGH / HIGH SCHOOL ART

We are at that time of year again for our annual Open House. This year it will be held on Monday, March 18 from 6:30 pm to 8:00 pm. There will be art displays at both the junior high and high school. At the high school, as well, we will be showcasing our senior portfolios.

Also coming up is our state competition, the Ohio Governor's Art Show, which runs from April 22 to May 16 at the James Rhodes Tower in Columbus, Ohio. The regional judging for this competition will be held on Saturday, March 2 with the state judging on March 9. We will have several New Bremen students participate.

Come on out to see what the students have been creating!

Mrs. Heather Moeller
Art Educator 7-12

SEVENTH AND EIGHTH GRADE MATH NEWS

The seventh and eighth graders are working very hard and making great progress in math class! The Algebra I students are exploring and learning about systems of equations, and the Algebra A students are practicing solving equations with variables on both sides, computing with fractions, and solving with the Distributive Property. The accelerated seventh graders are beginning our eighth grade topics involving irrational numbers and exponents, while the seventh grade classes are digging into geometry.

Being successful in anything that we do takes the belief that we can do it, especially in math. We put limitations on ourselves by the way we think. In a fixed mindset, we believe qualities, like intelligence or talent, are fixed traits. Students tend to believe that talent alone creates success, without effort. In a growth mindset, students believe their most basic abilities can be developed through dedication and hard work. I encourage my students to have a growth mindset in math class and in everything that they do. Here are some ways to encourage your child to have a growth mindset:

1. Praise effort over outcomes.
2. Encourage students to embrace challenges.
3. Take time to engage in deep thinking.
4. Celebrate mistakes as learning opportunities.
5. Encourage students to believe in themselves.
6. Support productive struggle.

Ms. Jan Beyke
Seventh and Eighth Gr. Math

INTERVENTION GRADE SEVEN AND EIGHT

Seventh and eighth grade reading class recently completed a unit in Study Sync titled “Suspense!” and are currently undertaking “In Time of War”. During this unit students will study various historical figures including Winston Churchill and Adolf Hitler, as well as read the novel *Milkweed* by Jerry Spinelli. While reading and exploring these topics, students will complete an argumentative essay that answers questions surrounding human nature. As always, we will relate concepts such as plot diagram, character analysis, theme, tone, and symbolism.

Math is moving along as students were introduced to solving problems that included: rate of change, slope, proportional and non-proportional relationships, one-step equations and inequalities, and two-step equations and inequalities. Students will take on the concepts of systems of equations and geometry principles in upcoming units.

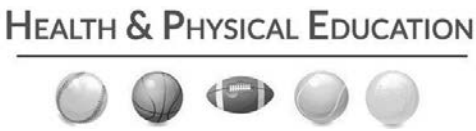
Mr. Bill Evans
Intervention Specialist

In seventh grade Language Arts, the students are currently wrapping up an argumentative writing unit. During the unit, students learned how to create claims and counterclaims, select relevant and reliable evidence, write to a specific audience, and use a variety of sentence structures. All of these lessons will help to prepare the students for the End of Course ELA state test.

Looking ahead to February and March, the ELA 7 students will be diving into unit three which covers the essential question “What are the principles of a just society?”. In order to explore this essential question, we will be looking at a variety of fiction and nonfiction pieces that will allow students to consider and discuss the qualities of a society and/or government that is morally right and fair. Along with the texts covered during class, students have selected an independent novel to complete with a more self-directed book project. The book project will enable students to explore the unit question even further by choosing from a variety of both analytical and creative tasks.

As the end of the year quickly approaches, the seventh grade ELA students will be working hard to prepare for the End of Course state test. We will be completing practice tests which include reading passages and writing prompts. Students will be given the opportunity to participate in one-on-one writing conferences where they will receive personalized feedback on their response to the practice writing prompts. It is my hope that these one-on-one sessions will ensure a higher rate of success for students when it comes to the state test.

Mrs. Jordyn Trabue



I hope a fun-filled Christmas break was had by all. This is a fun, yet sad time as classes change in the junior high and high school, so while some students will be moving on, a new batch is coming in. I look forward to working with the new students on various aspects of mental, social, and physical health. The fifth and sixth grade students are doing a great job in their P.E. classes and I know that will continue over their final two grading periods. Junior high students are reminded to make sure they have appropriate clothes to change into for class as part of their daily grade. High school students will be working on many different aspects of health. If you have any questions or concerns, please feel free to email me at josh.bowersock@newbremenschools.org.

Mr. Josh Bowersock, 5-12 P.E. and Health

English

The beginning of third quarter has seen the conclusion of the StudySync unit "In a Time of War", which focuses on World War II. In this unit, students examined various informational texts, from Churchill's famous "Blood, Toil, Tears, and Sweat" speech to first-hand accounts of the *Kristallnacht* pogroms of November 1938, contemplating the question, "What does our response to conflict say about us?" This unit has provided a rich learning experience and opportunity to examine what is needed to overcome hardship.

Our full-text study in this unit was *The Diary of Anne Frank.* Students have read the award-winning drama by Goodrich and Hackett as well as substantial sections of Anne Frank's original diary, considering all the while how the structure of these two texts impacts their meaning and style. Eighth graders also learned much about the complexity of human nature as they analyzed character development in the drama and diary.

Next in literature, we will be turning our focus to Ancient Greek and Roman mythology. Students will interact with several different myths, analyzing how these ancient works have influenced modern stories.

On the English side of things, students have been developing the use of grammar skills to improve their writing. We are studying and mastering several comma rules that underpin key sentence structures, and working on using varied, more advanced ways of combining sentences. These skills have and will go far in helping students write at a higher level.

Finally, third quarter will see a focus on argumentative writing. Students will be working not only on making and supporting their own claims, but also on evaluating the claims of others, identifying and critiquing the evidence presented. These skills are essential both for their continuing academic careers and for their success as critical readers in the real world.

Mrs. Lindsay Mauch

REAL MONEY, REAL WORLD

Real Money, Real World is a real life simulation that is put on by the Auglaize County Ohio State University Extension Office. This is a hands-on activity that deals with providing for a family based on a career and a monthly salary. The students were given career options and a salary and from that they had to figure a net income by taking out taxes, insurance, and retirement. Students, freshmen through seniors in the Life Skills classes, participated in the activity where they were able to have a career of their choice and then from that career they figured a monthly salary and then use that salary to provide for their family. They had to provide items for their family such as shelter, clothing, food, transportation, child care, utilities, and insurance. If the students occupation required a college degree, there was also a college loan payment station that required the students to look at how much debt they would have for a 2, 4, 6 year college degree and make a monthly payment on that amount. This was an eye opener for many college bound students. Students were also able to seek financial advice if they needed it because they were running low on funds. This advice could have been as simple as maybe changing their cell phone option to a lower plan or they could have been given a part-time job. The goal at the end of the simulation was to have money left that they could put into savings for possible emergency situations or possibly for retirement. I would like to thank the Auglaize County OSU Extension Office and all of the community volunteers that took time out of their day to come in and make this activity happen for our students.

Mrs. Cresta Ritter
Intervention
Specialist
and
FCS Teacher

HIGH SCHOOL ENGLISH

Juniors are preparing to take the ACT at the high school on February 20. Last quarter we worked through practice tests and studied the skills covered on the English Language (grammar) portion. This quarter we're working through skills tested on the Reading portion for English on the ACT.

Additionally, juniors are studying the language devices and development of complex characters in Shakespeare's *Taming of the Shrew* and practicing their vocabulary skills through their individualized on-line Membean accounts.

Freshmen are using their understanding of poetic elements to analyze various types of poetry. The ability to explain how the language points to a theme is a similar skill used in their analysis of informational texts. A number of the writing assignments during the third quarter involve response to articles. Students will build on this later in the quarter to develop longer reflections when as we get into the next unit of Romeo and Juliet.

As other grade levels, freshmen are enhancing their vocabulary skills through their individualized on-line Membean accounts.

Mrs. Jodi Schumm

SOCIAL STUDIES

It was a fast first semester at the high school but a good one.

In American history class we began the second half of the school year by looking at the United States at the beginning of the 20th century. During the first semester we studied the U.S. and how it changed in terms of the rise of industrialization and urbanization in the late 1800s. When the new term began, we studied how the U.S. expanded and grew through imperialism to become a world power throughout the 1900s. We should end the school year talking about the Cold War.

In world history class some of the major topics from the first part of the year were the Enlightenment, the age of revolutions, including the American and French revolutions, and imperialism. We started off the second semester with WWII and then quickly dove into the Cold War and all its aspects. We will finish the school year studying the world post-Cold War with topics like terrorism, advances in technology and the challenges in the globally connected economy.

Go Cards!

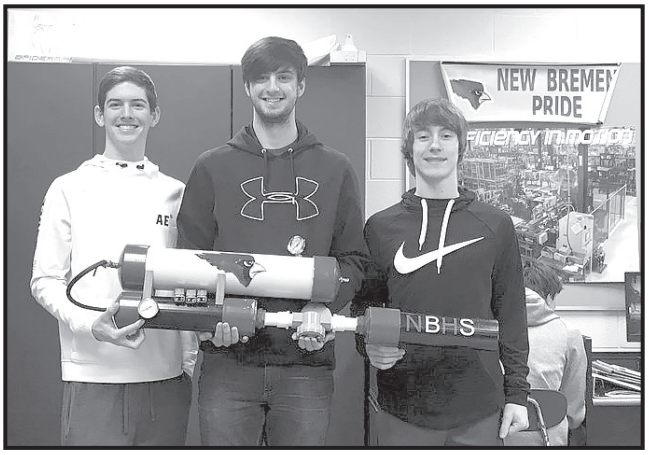
Mr. Chris Schmidt

Industrial Technology

Well, it's been a great start to the year and it's hard to believe we are half the way through the school year. Students in the Engineering and manufacturing labs have been extremely busy with project-based learning.

In the manufacturing lab, the Woods I classes have finished up and most students are enrolled in Woods II. Students manufactured a wide variety of projects this past semester ranging from a large gun cabinet by Austin Brown to a motorcycle ramp by Levi Archey. The students in the Metals I class are progressing into Metals II where they will get to experience the metal lathe and vertical mill to complete several basic skills projects. Their first project is a small benchtop vise.

In the Engineering (PLTW) lab, students have been experiencing simple machines, soldering circuit boards, and learning about and sketching isometric, oblique, perspective, and orthographic projection types of drawings. Engineering Design and Development students have been designing and constructing a pneumatic powered tee shirt gun.



Also, students from the physics class have been using the CNC router and 3D printer to design and produce wheels and frames for the mouse trap cars.

Mr. Michael Heuker

STUDENT ATHLETES:

Activity free week for the summer of 2019 will be Sunday, June 30 to Sunday, July 7

HIGH SCHOOL SCIENCE NEWS

It's good to be back to school in 2019. I'm sure this year will bring wonderful things for our students and the New Bremen School District. We are off and running in the third 9 weeks. We are making the most out of each day in January and February as we move closer to nicer weather and spring!

The AP Biology classes are currently in the middle of studying cellular communication and how it relates to various body systems. We have done some in-depth analysis of the endocrine, nervous, and immune systems. While these units are extremely detailed and content heavy, the students are doing a great job and I am confident they will do well on this portion of the AP test in May.

In Chemistry, your students have been hard at work learning how to name chemical compounds. Historically, this is one of the most difficult topics for students to understand. This year's group is doing a very nice job with a difficult topic and we are making a lot of progress. Soon we will move into chemical reactions and stoichiometry.

The Biology classes are studying genetics and molecular genetics. We will be doing some interesting labs involving genetics and inheritance patterns. Hopefully some hands-on lab work will make some difficult content a little simpler. Soon, we will be building models of DNA. The kids will have 100% control on how they build their model. I am always looking forward to seeing how these projects turn out. I am always impressed.

Mr. Dan Kanney

JUNIOR / SENIOR PROM

The juniors are excited to be planning the 2019 Junior/Senior Prom. This year prom will be held on Saturday April 27. Promenade will begin at 8:30 in the high school gym and the dance will be from 9-12 in the high school commons. This year's prom theme is "The Roarin' 20's."

Mrs. Loresa Burden and Mrs. Cresta Ritter
Junior Class Advisors

ATHLETIC UPDATE

Thank you to Western Ohio True Value and First National Bank for sponsoring the new scorer's tables.

Upcoming dates for winter tournaments are as follows:

- Sectional swim meet at Ayersville 2/9
- District swim meet at BGSU 2/15
- Sectional girls' bowling at Wapakoneta 2/15
- District girls' bowling at Rossford 2/22
- Sectional boys' bowling at Wapakoneta 2/16
- District boys' bowling at Rossford 2/21
- Sectional girls' basketball at either St. Marys or Coldwater Tuesday 2/19 or Wednesday 2/20 and Saturday 2/23
- District girls' basketball at Wapakoneta Thursday 2/28 and Saturday 3/2
- Boys' sectional basketball at either Coldwater or Lima Bath Tuesday 3/26 or Wednesday 2/27 and Friday 3/1
- Boys' district basketball at Wapakoneta Tuesday 3/5 and Friday 3/8
- 7th grade girls' basketball 2/2, 2/5, 2/7 at New Knoxville
- 8th grade girls' basketball 2/2, 2/5, 2/7 at Ft. Recovery
- 7th and 8th grade girls' basketball championship game 2/9 at Ft. Recovery
- 7th grade boys' basketball 2/7, 2/9, 2/12 at Parkway
- 8th grade boys' basketball 2/7, 2/9, 2/11 at Marion Local
- 7th and 8th grade boys' championship game 2/16 at Marion Local

Upcoming dates and events at New Bremen:

- Presentation of Volleyball State Runner Up Die Cut 2/1
- Techno Birds presentation at basketball game 2/1
- 5th/6th grade boys' basketball during halftime 2/2
- Girls' basketball, bowling and swimming senior night Thursday 2/14
- Pop Rocks jump rope squad performance at basketball game 2/22
- Cheerleading and boys' basketball senior night Friday 2/22
- Ben Homan 5th/6th grade Tournament 2/23 and 2/24
- MAC winter banquet at Minster Monday 3/4
- Winter sports awards program Monday 3/11
- Baseball and softball practice begins on Monday 2/18
- Track practice begins on Monday 3/4
- Spring sports media day Tuesday 3/12
- Athletic Physicals Wednesday May 8th

Mr. Gary Jones
Athletic Director

GO CARDINALS!

CHOIR NEWS

The members of the high school choir program had a busy and successful first semester of music making. They kicked off the 2018-2019 season with their annual fall musical revue. This performance was held on Friday November 9, 2018 in the James F. Dicke Auditorium at New Bremen High School. This year's theme was “The Greatest Show” and included selections from movies and Broadway musicals such as *The Greatest Showman*, *Hairspray*, *Dear Evan Hansen*, *Catch Me if You Can*, *Hair,* and many more. The choir students performed in large production numbers, as soloists, and in small group numbers. Thank you to the administration, school community, parents, friends, and neighbors that came to this performance and supported the students and the choir program.

The high school choir members continued their active performance schedule through the month of November into the Christmas season. On Monday, November 26 choir students performed for the annual Tree Lighting Ceremony sponsored by the New Bremen Rotary Club. On December 6 choir students travelled to Lima to participate in WTLW Channel 44’s “Sounds of the Season” program. This program was aired on Christmas Eve and Christmas Day. Sean LaFleur, Alberto Benitez, Ian Frey, Mitchell Moeller, and Cole Hemmelgarn shared music with our administration and school board members at the December 12 school board meeting, and on December 13, members of the Concert Choir performed for Kappa Delta Gamma. The annual High School Christmas Concert was held on Monday night December 17 and members of the Concert Choir performed at the December Rotary Club meeting the morning of December 18. The season of holiday music making was completed by the second 9 week’s junior high enrichment choir as they performed for the junior high students on Friday, December 20.

CHOIR NEWS (Continued)

The second semester brings many more performance opportunities for both junior high and high school singers. Please check out the following calendar of events for concert dates and activities.

Your continued support is greatly appreciated!

Mrs. Patricia Ruckman

NEW BREMEN EDUCATION FOUNDATION CONTINUES TO ASSIST STUDENTS WITH ACADEMIC SCHOLARSHIPS

The New Bremen Education Foundation is pleased to announce the opening of its 2019 fund-raising campaign to generate scholarship money for graduates of New Bremen High School. In the first year of operation, the foundation awarded seven academic scholarships. In 2018, the foundation awarded eighty-five scholarships totaling approximately $88,270.00. The Education Foundation Trustees invite individuals, businesses, and organizations to consider a contribution to this worthy cause. The amount of each donation may remain confidential; however, the names of all donors will be released during the scholarship presentation at graduation unless requested otherwise.

There are two different types of donations. The first is an annual contribution, all of which is distributed as scholarship monies to this year's recipients. Secondly, donors of large sums of cash, stocks, or bonds may specify their gift as a perpetual donation. These donations are invested with only the interest being distributed each year. The names of individuals or groups who make perpetual donations are included on the donor list every year following the donation.

In 2018, the New Bremen Education Foundation was merged into the New Bremen Foundation. More information can be found at www.newbremenfoundation.org. Any group or individual interested in making a contribution can do so by cash, check, or online at www.newbremenfoundation.org/donate-now. Checks should be made payable to "New Bremen Foundation" with the scholarship name noted in the memo line and can be mailed to: New Bremen Foundation, PO Box 97, New Bremen, OH 45869. If you have any questions please contact Anna Rammel, New Bremen Foundation Coordinator, at 419-629-9260 or anna.rammel@newbremenfoundation.org.

All contributions are tax deductible as provided by law.

New Bremen Education Foundation Board of Trustees
Mr. Jason Schrader - Superintendent

SCHOOL DELAYS AND CANCELLATIONS

It is the policy of New Bremen School to delay classes or close school at any time when it is determined that the safety or the health of the students is in question. This includes severe fog, unsafe roads due to snow or ice, tornados, or a severe utility problem at the school. Announcements are made as early as possible. However, a dense fog, heavy snowfall, or tornado alert at the time of bus departure could cause a late announcement. School functions scheduled on the day of a closing are usually cancelled unless a change in the weather or the correction of a utility problem allows the activity to be held. The information will be posted on one of the following radio or television stations, and/or you will be notified by the school's automated notification system.

School Website: www.newbremenschools.org

Radio:	WIMA/WIMT – Lima	102.1 FM
	WCSM – Celina	1350 AM 96.7 FM
	WKKI – Celina	94.3 FM
TV:	WLIO – Lima	Channel 35
	Dayton	Channel 7

In case of delay, continue listening or check the above list.

New Bremen Local Schools participate in a recycling program called FundingFactory. FundingFactory accepts toner and inkjet printer cartridges that are undamaged and not previously remanufactured. The brand names that we can recycle are: Brother, Canon, Dell, Hasler, HP, IBM, Konica, Lexmark, Ricoh, Samsung, Toshiba, and Xerox.

Toner tubes which are found in copy machines DO NOT qualify for payment and cannot be recycled through FundingFactory's program.

We appreciate your support of this program and ask that you only drop off items that can be recycled.

Thank You!

It is once again that time of the year to clean your attics and closets in preparation for the 27th annual **New Bremen Community Garage Sales**, which will be held on **Friday, April 12 and Saturday, April 13, 2019**. All community members interested in participating with a garage sale should send **$7.00** per family (make checks payable to the Cardinal Pride Association), a short list of items to be sold, and the address of the sale to:

The Cardinal Pride Association
202-210 S. Walnut Street
New Bremen, OH 45869

Entries must include the $7.00 listing fee, and must be received by mail **by March 25**. No late entries will be accepted, and we will not accept submissions by email. Once submitted, your listing will be final and changes cannot be made. The $7.00 fee will cover the cost of advertising in a number of newspapers. All proceeds from the paid listings will be donated to the New Bremen School's Cardinal Pride Association. Please note that due to Health Department Regulations, the sale of food items such as meat, sandwiches, hot dogs, cream pies, meringue pies, etc. is not allowed without a license. The sale of baked goods such as cookies, cakes, fruit, brownies, etc. is acceptable. For additional information regarding the food items, please contact the Auglaize County Health Department at 419-738-3410.

Cardinal Pride Association

SCHOOL FACILITIES OPEN TO WALKERS

walking for health

For those individuals who enjoy walking throughout the winter months, the New Bremen High School is available for indoor walking in the hallways from 6:00 - 7:00 a.m. and from 6:00 - 8:30 p.m. Monday through Friday when school is in session. The hours at the Elementary/Middle School are 6:00 - 7:00 a.m. and from 5:00 - 8:30 p.m. Monday through Friday when school is in session.

KINDERGARTEN CLINIC SCREENING

The annual Kindergarten Screening will be held in the elementary library on Monday, March 25 and Tuesday, March 26. Children eligible for admission to kindergarten next fall are required to attend. Children must be five years of age on or before August 1, 2019, in order to be eligible.

Children and parents attending the screening will be met by a number of people, all of whom are taking part in the Kindergarten Assessment Program. We remind everyone that parents and children will be spending **at least 1 1/2 hours** with us at the screening. If at all possible, it is best if younger and/or other children do not accompany the preschooler and his/her parents to the clinic.

In order to provide an efficient screening, appointment times will be set up at intervals. **Being on time is very important if we are to keep appointments running smoothly.** Parents of children registered for kindergarten will receive a letter indicating their **appointment date and time.** Appointment letters will be mailed out sometime in February.

Parents are reminded to bring their child's **Birth Certificate, Social Security Card, Immunization Record and Custody Papers (if applicable)** when attending the screening. In accordance with state law, all children must have the following immunizations before entering school:

DTP -	4 or more doses – one dose must be given after 4 years of age
POLIO -	4 doses - one dose must be given after 4 year of age
MMR -	2 doses after 1 year of age and at least 28 days apart
HEPATITIS B -	3 doses with 3rd dose after 24 weeks of age (Recommended for all 0-18 years olds.)
VARICELLA -	2 doses after 1 year of age, unless child has had disease (chicken pox), at least 28 days apart (but recommended to be 3 months after the first dose)

Parking for the screening will be available on Plum Street. Please use the elementary entrance. Thank you for your cooperation.

Mrs. Lisa Steinke
School Nurse

Mrs. Diane Kramer
K-6 Principal

KINDERGARTEN SCREENING FORM
NEW BREMEN LOCAL SCHOOLS

It is important that we have names of children who are eligible to attend kindergarten next fall (those who will be 5 on or before August 1, 2019). **PLEASE COMPLETE AND RETURN TO THE ELEMENTARY OFFICE.** We are also interested in knowing the number of children who will be attending New Bremen Local School through the next five years. Complete this form if you have a child eligible for kindergarten and have not registered, or have a preschool-age child (age 0-5) and have not registered. Share this with a relative, neighbor, or friend.

Recycle & Redeem with Funding Factory®

Help Us By
Donating
Your Used Cell Phones and
Empty Laser and Inkjet
Printer Cartridges

The New Bremen Local Schools will benefit from your old used cell phones and empty printer ink cartridges. It's easy! Just bring these items to one of our school offices and we'll take it from there. We will recycle the cartridges and cell phones through FundingFactory to earn technology equipment, playground equipment, sports equipment, or cash.

FundingFactory also sponsors a businesses support program, where employers can help our school without spending a cent. For more information visit their website at www.FundingFactory.com or call toll-free at 1-888-883-8237.

TOGETHER WE CAN MAKE OUR FUND-RAISER A SUCCESS!
