

**Morning and After School Traffic Flow**

(Green Line) Parents planning to drop students off at school this year will need to enter the main entrance off Monroe Street (SR 274) and follow the drive along the front of the high school building. The drive is “one way” with the curb side lane being designated as the drop off zone. Students may be dropped off in front of the high school or elementary. We are asking parents **not** to enter the school campus through the vacated section of Cardinal Street as this section will be used as the exit for parent drop off. Parents picking up students at the end of the school day should use the same drive as morning drop off in front of the school. We will allow parents to temporarily wait curbside in the vehicle to pick up students.

(Yellow/Red Line) All Students driving to school will need to enter the rear parking lot from Kettler Road (Yellow/Red Line). Students should park on the west side of the center parking lot islands closest to the athletic stadium. The parking area between the islands closest to the school is designated as staff parking.

(Red Dashed Line) Students who walk or ride a bike to school should use the sidewalk on the north side of the athletic stadium or the sidewalk along Monroe Street to access school grounds. Access to the rear parking lot will be restricted by a gate before and after school to allow students to cross the drive safely.

\*All traffic entering and exiting school grounds during the day should use the main entrance off Monroe Street (SR 274). The gate access to the rear parking will be open while school is in session.
